

### **Calf-Tel® Compact**

The Calf-Tel Compact is the most efficient solution for smaller sized calves or shorter-term calf housing needs. The Calf-Tel Compact is easy to clean, store and transport. When space is a concern, the Calf-Tel Compact's reduced footprint increases the number of hutches you can use in a given area.

### **Calf-Tel® ECO**

The Calf-Tel ECO is a mid-sized hutch that provides a smaller, space saving solution for dairymen. The ECO hutch is smaller than the Pro and Deluxe models, allowing dairymen to take advantage of the reduced foot print and the economies of scale the ECO hutch provides.

### **Calf-Tel® Pro II**

Designed for maximum labor efficiency, the Calf-Tel Pro II system is used by some of the world's largest calf ranches and dairy producers. With its crucial labor saving features, the Calf-Tel Pro II provides a cost-effective solution for your calf operation.

### **Calf-Tel® MultiMax Group House**

When calves raised individually are placed in large groups, the stress from competition and social pressure can lead to growth and health setbacks. Placing four to six similarly-sized, weaned calves in a Calf-Tel MultiMax is the best way to ease the transition. Continued growth and health will be attained as animals bond and develop a social group.

### **Calf-Tel® Deluxe II**

The Calf-Tel Deluxe II system has all the same benefits as the Calf-Tel Pro II, but comes equipped with a side feed door designed to protect the indoor feed station from the elements. There are a variety of optional feed kits available to meet your specific needs.

### **Calf-Tel® XXL**

The Calf-Tel XXL provides the most interior usable space for your calves. The XXL is 44% larger than our existing Pro and Deluxe II hutches and has 26% more interior usable calf space than other XL hutches on the market. When a larger size hutch is preferred, the XXL is the best option available.

### **Calf-Tel® Pen System**

The process for developing our revolutionary indoor pen systems can be summed up in one statement: We listened.

1. They work in any indoor setting. Modular to maximize space and accommodate various raising styles.
2. Easy to set up. Our L-Rod connector system makes it easy to set up, or add and remove pens.
3. Durable and long lasting. Backed by our 10 year warranty.
4. Safe for the animals.

### **Ten Year Limited Warranty**
