

BUILD A BETTER CALF[®] FIRST 21[®] SUPPLEMENT

NUTRITIONAL SUPPLEMENT TO BE ADDED TO PASTEURIZED WHOLE MILK
OR MILK REPLACER AND FED TO YOUNG CATTLE

Contains a source of live (viable) naturally occurring microorganisms

RESEARCH-SUPPORTED FEATURES AND BENEFITS

Formulated with functional proteins from three sources:

1. Dried bovine colostrum
2. Spray-dried plasma
3. Egg proteins

A combination of these three functional protein sources provides immune support reducing antibiotic use and providing a reduction in scours, improved digestive system development, increased starter intake, and increased calf growth and development during the critical first weeks of life.

Formulated with 1 gram/head/day dosage source of probiotics (Tri-Mic WD)

- Provides beneficial microflora for competitive exclusion of pathogens, reduction of scours, improved feed intake and utilization, and weight gain

First 21 - Same great benefits in two formulations - Supplement or Complete Milk Replacer

- First 21 is available as a supplement to be added to pasteurized whole milk or milk replacer.
- First 21 is available as a complete milk replacer.

AVAILABLE PACKAGE SIZES

WHEN TO USE

First 21 is designed specifically to assist in bridging the critical immunity gap that occurs between the time when a calf is relying on antibodies provided from colostrum replacer or maternal colostrum until its own immune system is developed at one to two months of age.

DIRECTIONS FOR USE

- Add 1.2 oz. (35 grams) of First 21 Supplement to calf milk replacer or pasteurized whole milk.
- For best results, feed at rate of 1.2 oz. (35 grams) per calf per feeding. Feed continuously, twice daily for two to three weeks.
